For companies

Mail processing made easy
Thanks to our comprehensive services.

Simplify your mailing process thanks to Tildepost

Tildepost as online digital mailbox and post office in the first place for the **digital sending of all of your mail**.

But also for your conventional mail you can contact us.

You can send not just **regular letters** but also **registered letters** and **signed quotes** through the Tildepost platform straight from your computer, tablet or smartphone.

If you opt for conventional mail, then your letter automatically is printed, put in an envelope, stamped and sent by Tildepost.

If you choose digital shipping than your letter is sent via a **100% secure protocol** so the recipient never needs to have reasonable doubts as to the authenticity of your letter. In addition, you can use Tildepost to follow up whether your digital letter was well received and read.

A total security of your digital mail

Unlike email, **your digital mail via Tildepost is fully secured**.

Phishing or sending malware is disabled by our platform. At a time when hackers are becoming more and more inventive it is increasingly difficult to distinguish between a phishing mail and a real mail, **Tildepost guarantees you a reliable, secure environment** for sending your digital mail.

As a company guarantee your suppliers, prospects and customers added security by only sending your documents through Tildepost.

Sorting incoming mail

Your incoming digital post is **automatically sorted** into folders. Thanks to this sorting process, all your incoming invoices, payroll, newsletters etc. are filed neatly, whereby you spend less time sorting out your mail.

Follow-up of your digital mail process

Every letter that is sent digitally, can also be followed online so **you can check when your letter was received and read**. In addition, you have the assurance that your letters, quotations, invoices or reminders do not end up in the spam folder of your recipient.

You can also use the Tildepost platform for sending registered mail or to sign contracts and quotes. Thanks to our **verification code with time stamp** you can always track what time your shipment received, when it is read and when it is signed.

- security of your customers and prospects from phishing
- follow up online of quotes, invoices and reminders
- safe online sending payroll documents
- online sending of registered letters
- app for smartphone available

Large companies and processing mail.

The Tildepost platform offers the possibility to add different sub-accounts underneath one master account which enables the possibility to give **different administrative** access to the platform, each with custom rights.

For companies that need special functionalities to manage their mail, we also offer **custom programming**. We analyze the specific needs and see in what way we can translate these needs onto our digital platform.
